							significant delays.
13	Government agencies and other stakeholders may not be equipped to convert to virtual engagement activities because of inadequate technological preparedness	8/26/2020	Operational	Take note of limitations; where possible attempt to accommodate them by exploring alternative mechanisms to communicate. Otherwise, explore engaging with other stakeholders.	Project Management Team in coordination with NEDA-MES	8/26/20	High-level (P=4, I=5) risk realized For the most part, government agencies have been able to engage with the capacity building activities with the Project's RP. There have however been noticeable delay in providing feedback from agencies and stakeholders that are respondents to evaluation studies. This has been managed by the contracted firms by getting local hires or using other means of communication to follow up on requests.

	acquiring the buy in of stakeholders.			programmes and projects.			studies. This proved very helpful as the key partner office take the lead in the processes that need to be conducted for each evaluation phase. In instances where the buy-in of the stakeholders weakened midway, the PMT facilitated coordination meetings to ensure consensus-building without compromising the integrity of evaluation results.
9	Similarly, other government agencies may not cooperate with the evaluation readiness assessment due to a host of factors: from the lack of time/inability to make key persons available, to lack of interest or resistance to policy.	12/8/2017	Political	The project continues to carry the core message that evaluations are meant to improve program implementation and impact. Non-government stakeholders will also be tapped to help advocate for strengthening evaluation capacity in government.	Project Management Team in coordination with NEDA-MES	8/10/2020	Medium-level (P=3, I=3) risk being actively mitigated The continuous engagement and promotion of the project's components with different stakeholders, the social media interactions, were helpful in mitigating this risk. Through the help of NEDA leadership and support, most stakeholders turned to be more

No	Description	Date Identified	Type	Countermeasures/ Management Response	Owner	Last Update	Status
	and creating unnecessary costs for the project and its contractors.			government officials.			This has been the case for most activities especially because of the pandemic. It has also become increasingly apparent that efforts to promote results utilization and completion of management responses from stakeholders for the completed studies require improving buy-in by concerned stakeholders. While the NEPF draft guidelines outline the roles of the different stakeholders, there seems to be some difficulty in following them strictly.
8	Implementing agencies may resist the conduct of evaluations, which in turn may lead to poor quality evaluations or no evaluations at all. Moreover, if evaluations publish negative results there might be difficulty in	12/8/2017	Political	Constant communication and consultation to ensure buy in and avoid conflict during conduct of evaluation. Use capacity development activities as a platform to emphasize that evaluations are not for fault finding but rather for improving impact, conduct, and management of	Project Management Team in coordination with NEDA-MES	8/10/2020	Medium-level (P=3, I=3) risk being actively mitigated Early engagement and consultations were conducted to ensure that key offices/agencies will have buy-in and provide support to the conduct of

Project Monitoring Plan

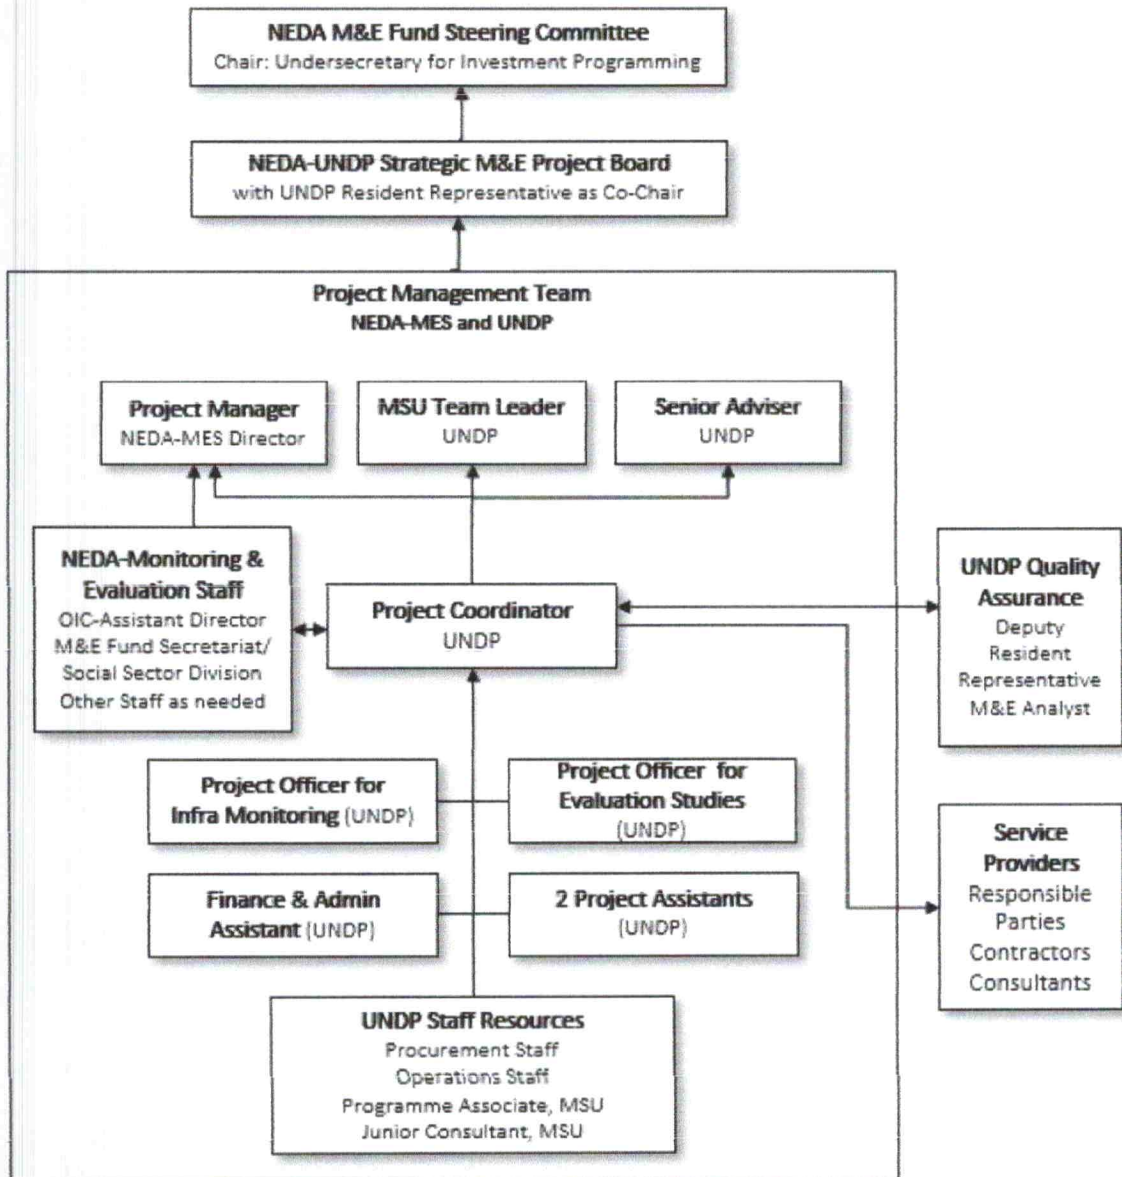

I. MONITORING AND EVALUATION PLAN

Project Theory of Change (Map of Outcomes)

Project Organizational Diagram:

[From Project Document Section VIII, with modifications]

II. MANAGEMENT ARRANGEMENTS

Explain the roles and responsibilities of the parties involved in managing the project. Use the diagram below for the composition of the Project Board – as deemed necessary and confirmed during the Project Appraisal Committee meeting.

[From Project Document Section VIII] As the national agency mandated to coordinate national development planning, investment programming, program/project evaluation, and program/project monitoring, and coordination or foreign assistance to the country, the NEDA shall be the implementing partner for this project. Specifically, the NEDA-Monitoring and Evaluation Staff (MES) shall have overall responsibility and accountability for the delivery of the project outputs.

The project is implemented under the National Implementation (NIM) modality with full UNDP Country Office Support. This means that UNDP Procurement and Administrative Services shall be used to deliver project activities and results as stated in the project document. The project team organized by UNDP for the purpose shall support the NEDA-MES in ensuring the delivery of project outputs, producing reports, and implementing quality assurance.

Project Management

1. The Project Management Team is composed of the NEDA-MES Director as Project Manager, a UNDP Senior Policy Advisor, a Project Coordinator, and supported by programme, finance, and procurement staff from the UNDP Country Office (CO). The Project Management Team will likewise be supported by the UNDP CO Institutions and Partnerships (I&P) Outcome Lead, Programme Analyst, and RBM Analyst, under the overall supervision of the UNDP Resident Representative. UNDP will provide technical advisory and project management services to NEDA-MES for the effective management of the NEDA M&E Fund.

The Project Coordinator shall support the NEDA-MES Director / Project Manager and lead a UNDP project team, which shall be composed of a Project Officer for Evaluation Studies [revised], Project Officer for the Infrastructure Monitoring System, a Finance and Administrative Assistant, 2 Project Assistants, and Project Consultants. The Project Coordinator shall likewise ensure that outputs and participation required from other UNDP staff are provided, particularly from the Procurement Team and Operations Team.

The UNDP Senior Policy Advisor from the Programme and Impact Advisory Team will serve the purpose of providing strategic guidance to the Project Team and NEDA-MES.

2. The Project Board is the group responsible for making by consensus management decisions for a project when guidance is required by the Project Manager, including recommendation for Implementing Partner/UNDP approval of project plans and revisions. The Project Management Team shall regularly report to the Project Board on progress including measures to address challenges and opportunities.
3. All procurement for the project will be done by UNDP following UNDP Financial Rules and Regulations. This includes the hiring of the Project Team, the evaluation and contracting of consulting services (either individuals or firms), and the contracting of Responsible Parties which are public institutions or non-government/civil society organizations that may be tapped to deliver and achieve certain project outputs.

Project Description

The Government of the Philippines has established a new development agenda focusing on the Duterte Administration's O to 10-point agenda. All priority national and international dimensions of development are reflected in the Philippine Development Plan (PDP) 2017-2022. Efficient implementation in the areas of planning, budgeting, and monitoring and evaluation are required to ensure the achievement of the national development goals. The project shall support capacity development activities for the National Economic and Development Authority (NEDA) and other agencies towards more effective evaluation of PDP and Public Investment Plan and Fiscal Plan implementation at the national and sub-national levels. The project shall also aim to integrate the Sustainable Development Goals (SDGs) into the government's evaluation framework. Through the provision of technical advisory and project management services, the project aims to support NEDA and government in managing and conducting evaluations and result in improved public-sector management and ODA monitoring and evaluation.
