

United Nations Development Programme
Country: Papua New Guinea

2020 Annual Work Plan

Project Title: Provision of technical services to the Government of PNG to support ongoing efforts to address climate change, conservation and the protection of biodiversity.

Expected CPD Output(s): Outcome 3: By 2022, Papua New Guinea demonstrates improved performance in managing environmental resources and risks emanating from climate change and disasters.

Expected UNDAF/CP Outcome(s): Outcome 3.1 By 2022, PNG: Strengthened legislative and policy frameworks with institutional support for natural resources management including climate change mitigation, adaptation and disaster risk management.

Executing Agencies: United Nations Development Programme

Implementing Partner:

Brief Description

Papua New Guinea is navigating how to position itself to address the challenges of climate change while still growing its economy. To respond to Papua New Guinea's diverse challenges, the UNDP concentrates its efforts on building the country's capacity to promote inclusive, pro-poor growth, effective governance, and sustainable and resilient development. Driven by demographics, a reliance on natural resource exports and its geo-strategic position, credible and sustainable climate action will require both policy responses and practical actions. The UNDP has and continues to assist the Government of Papua New Guinea in these areas. This Project will see senior technical advisory services continue working in the UNDP Country Office to support the Government of Papua New Guinea in these areas. It will also support the development of a climate response strategy and associated action plan.

Programme Period: 2019 - 2021

Key Result Area (Strategic Plan): Environment, Climate Change and Disaster Risk Management

Atlas Award ID: 00119116

Atlas Project ID: 00115684

Start date: 03 March 2019

End Date: 31 December 2021

Management Arrangements: DIM

Total resources required: USD 135,323.58

Total resources allocated: USD 135,323.58

- Regular N/A
- Other:
 - Aust. DFAT USD 128,861.00

Unfunded budget: USD 0.00

In-kind Contributions USD 0.00

I. ANNUAL WORK PLAN

EXPECTED OUTPUTS <i>And baseline, indicators including annual targets</i>	PLANNED ACTIVITIES <i>List activity results and associated actions</i>	TIMEFRAME				RESPONSIBLE PARTY	PLANNED BUDGET			
		Q1	Q2	Q3	Q4		Funding Source	Account	Budget Description	Amount (USD)
Outcome: Provision of technical services to the Government of PNG to support ongoing efforts to address climate change, conservation and the protection of biodiversity.										
OUTPUT: Baseline: - Services are being delivered Indicator(s): - Successful delivery of services continues. Target(s): 1) Continuity of successful delivery of technical advisory services Related CP outcome: 3	Activity Result 1: Provision of technical advisory services.					UNDP	Aus. DFAT	62300	Recurrent payroll costs IP staff	118,861.00
	Activity Result 2: UN Multi-sectoral climate strategy Description: UN-wide multi-sectoral climate response strategy that assesses the impacts of climate change across a range of social and economic sectors. This will include the effects of climate change on food security, nutrition, infrastructure, health and agriculture including impacts on efforts to scale-up the commercialisation of key cash crops. This work will inform the continued mainstreaming of climate considerations in the UN's programming in Papua New Guinea.					UNDP	Aus. DFAT	64397	DPC	10,000.00

<p>Baseline: No strategy or action plan in place.</p> <p>Indicators: Successful delivery of strategy and action plan.</p> <p>Target(s):</p> <ol style="list-style-type: none"> 1) Commercialization of key cash crops scaled-up 2) A range of results-based mechanisms to assist with coordination and more targeted action with humanitarian aid. 	<p>Activity: UN Action Plan on climate change</p> <p>Description: This plan will draw on the expertise and experience of all UN agencies. It will present a range of result-based mechanisms which assist with coordination and more targeted action. This plan will among other things draw out the relationship between climate change and displacement, food and water security, health threats and poor nutrition. The Plan will apply a geographic lens to how it supports the broader Strategy.</p>
