

## Nations Development Programme

Country: Papua New Guinea

2018 Annual Work Plan

**Project Title:** Facilitating Renewable Energy and Energy Efficiency Applications for Greenhouse Gas Emission Reduction (FREAGER)

**UNDAF/CP Outcome(s):** By 2015, Government and civil society have enhanced their capacity to implement biodiversity conservation, low carbon and climate resilient development initiatives for environmental sustainability and improved community livelihoods to reduce the vulnerability of women, girls, men and boys to disaster risks

**Expected Output(s):** Institutional Capacity Building for Sustainable Natural Resource Management (NRM) and Biodiversity Conservation: *Relevant GoPNG institutions at the national and provincial level the capacity to effectively plan, develop, implement and monitor policies and regulatory frameworks that promote the sustainable use of natural resources and biodiversity conservation*”.

*(Those that will result from the project)*

**Executing Agencies:** United Nations Development Programme

**Implementing Partner:** Climate Change Development Authority

### Brief Description

The United Nations Development Programme (UNDP), acting as an implementing agency of the Global Environment Facility (GEF), is providing assistance to the Government of Papua New Guinea's (GoPNG) Climate Change Development Authority (CCDA) to implement GEF Full Size Project (FSP) titled *Facilitating Renewable Energy and Energy Efficiency Applications for Greenhouse Gas Emission Reduction (FREAGER)*.” **The main objective of the project is to** enable the application of feasible renewable energy and energy efficiency technologies (to achieve greenhouse gas emission reduction in PNG). To achieve this goal, the project will assist the GoPNG in four key areas: i) Energy policy, planning and institutional development - improve development, enforcement and implementation of national and provincial energy policies, plans, and standards to promote the application of renewable energy and energy efficiency technologies; ii) Renewable Energy and Energy Efficiency Technologies Applications – pilot demonstration of small-scale technical-commercial viability and capacity on application of energy efficiency technologies and development of feasible renewable energy systems in PNG; iii) Financing of Renewable Energy and Energy Efficiency – improve availability of, and access to, financing for renewable energy and energy efficiency initiatives in the energy generation and end-use sectors; and iv) Energy Development and Awareness Enhancement - improve awareness of, and information about renewable energy and energy efficiency applications in the energy generation and end-use sectors, aiming towards behavioural change.

**Programme Period:** 2012-2017

**Key Result Area (Strategic Plan):** Environment, Climate Change and Disaster Risk Management

**Atlas Award ID:** 00094483

**Atlas Project ID:** 00098601

**Start date:** 1 June 2017

**End Date:** 31 May 2021

**PAC Meeting Date:** 1 December 2016

**Management Arrangements:** NIM

Total resources allocated: USD544,238

Allocated resources:

- GEF: USD519,238.00
- UNDP: USD25,000.00

Agreed by (UNDP): Tracy Vienings, Deputy Resident Representative

Agreed by (CCDA): Ruel Yamuna, Managing Director

## I. ANNUAL WORK PLAN

EXPECTED OUTPUTS <i>And baseline, indicators including annual targets</i>	PLANNED ACTIVITIES <i>List activity results and associated actions</i>	TIMEFRAME				RESPONSIBLE PARTY	PLANNED BUDGET		
		Q1	Q2	Q3	Q4		Funding Source	Account	Budget Description
<b>Output 1:</b> Facilitate Renewable Energy & Energy Efficiency Applications for Greenhouse Gas Emission Reduction (FREAGER)  <b>Baseline:</b> 0  <b>Indicators:</b> Number of areas in which newly adopted policies and standards (since project launch) promote renewable energy and energy efficiency  <b>Targets:</b> Recommended policy options for renewable energy and energy efficiency	<b>Activity Result 1:</b> Energy Policy, Planning and Institutional Development  <b>Activity:</b> Support review of energy policy, legislations and regulations to promote renewable energy and energy efficiency technologies in PNG  <b>Action:</b> <ul style="list-style-type: none"> <li>Conduct of policy gap analysis and preparing of relevant proposed policies to promote RE in PNG.</li> <li>Conducting of policy gap analysis and preparing of relevant proposed policies to promote EE in PNG.</li> </ul>					UNDP, CCDA	63100	International FTA	100,000.00
