

## Revised 2014 ANNUAL WORK PLAN

### *Building an Inclusive Financial Sector in Rwanda Program (BIFSR) - Expansion*

#### INTRODUCTION

1. In 2007, a five year National Microfinance Policy Implementation Strategy (NMPIS) was validated by the main stakeholders in the sector. After completing the evaluation of the Strategy in 2013 the NMPIS II was developed for the period 2013 – 2017 based on the findings and lessons learned from the implementation of the previous NMPIS.
2. NMPIS II aims to 1) further reduce financial exclusion, by including substantial parts of the 1.3 million Rwandan adults not yet having access to financial services and 2) deepen and diversify the service provision to the families and individuals already included.
3. In line with international best practices, the NMPIS II takes into account the country context and is aligned with the overall government strategies for social and economic development as outlined in the EDPRS 2 (Second Economic Development and Poverty Reduction Strategy) and with the FSDP 2 (Second Financial Sector Development Program) which provides the background for the Microfinance Strategy in the Country.
4. Building an Inclusive Financial Sector in Rwanda (BIFSR) programme is set within the strategic framework of the UNDAP, EDPRS II, FSDP II and NMPIS II. It aims to contribute to poverty reduction and to the achievement of the Millennium Development Goals (MDGs) by promoting inclusive finance and entrepreneurship programs.
5. The specific objectives of the Programme are as follows:
  - a. **Macro level:** Support the coordination and the regulatory framework of the sector, with a view to promoting financial inclusion in Rwanda;

*[Signature]*

- b. **Meso level:** Contribute to capacity building and to the consolidation of the sector, and develop the financial infrastructure in order to support the sustainability of inclusive financial services;
  - c. **Micro level:** Support the professionalization of MFIs and innovations to promote sustainable access to financial services;
  - d. **Client level:** The capacity of women and youth to manage MSEs and access to finance is built.
- 6. Thus, the programme strategy will be to support the improvement of the regulatory and institutional framework, the strengthening of the National Association of Microfinance, and the professionalization of MFIs, including aspects related to the consolidation of small MFIs, financial transparency, risk management, as well as the strategic partnerships between banks and MFIs.
- 7. Programme beneficiaries include (1) MFIs and Savings and Credit Cooperatives (SACCOs) serving poor and low-income populations, especially women, micro-entrepreneurs and small family farms, (2) macro and meso stakeholders including MINECOFIN, MINICOM, BNR, AMIR, BDF, RCA, SMGF, (3) and the management bodies of the Programme (Steering and Investment Committees).
- 8. Below is the action plan for the period of **January 2014 - December 2014** developed based on consultations with all stakeholders with the facilitation of project technical team that is housed within the Ministry of Finance and Economic Planning. The action plan is indicative, the budget figures are either based on the initial budget as appears in the Programme document, or revised based on consultation with stakeholders and Authorized Spending Limits (ASL) provided by the funders (UNCDF/UNDP) on annual basis.
