3. Social and Environmental Risk Screening Checklist- SESP Attachment

Table 18: Social and environmental risk screening checklist

Principles 1: Human Rights		
1.	Could the project lead to adverse impacts on the enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups?	No
2.	Is there a likelihood that the project would have inequitable or discriminatory adverse impacts on affected populations, particularly people living in poverty or marginalized or excluded individuals or groups? ³⁴	No
3.	Could the project potentially restrict availability, quality of and access to resources or basic services, in particular to marginalized individuals or groups?	Yes
4.	Is there a likelihood that the would exclude any potentially affected stakeholders, in particular, marginalized groups, from fully project participating in decisions that may affect them?	No
5.	Is there a risk that duty-bearers do not have the capacity to meet their obligations in the project?	No
6.	Is there a risk that rights-holders do not have the capacity to claim their rights?	No
7.	Have local communities or individuals, given the opportunity, raised human rights concerns regarding the project during the stakeholder engagement process?	No
8.	Is there a risk that the project would exacerbate conflicts among and/or the risk of violence to Project-affected communities and individuals?	No
Princ	iple 2: Gender Equality and Women's Empowerment	
1.	Is there a likelihood that the proposed project would have adverse impacts on gender equality and/or the situation of women and girls?	No
2.	Would the project potentially reproduce discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits?	No
3.	Have women's groups/leaders raised gender equality concerns regarding the project during the stakeholder engagement process and has this been included in the overall project proposal and in the risk assessment?	No
4.	Would the project potentially limit women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services?	No
	For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well being	
	iple 3: Environmental Sustainability: Screening questions regarding environmental risks are encompassed by pecific Standard-related questions below	

³⁴ Prohibited grounds of discrimination include race, ethnicity, gender, age, language, disability, sexual orientation, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as an indigenous person or as a member of a minority. References to "women and men" or similar is understood to include women and men, boys and girls, and other groups discriminated against based on their gender identities, such as transgender people and transsexuals.

1.1	Would the project potentially cause adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services?	No
	For example, through habitat loss, conversion or degradation, fragmentation, hedrological changes	
1.2	The any project activities proposed within or adjacent to critical habitats and/or environmentally sensitive areas, including legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authoritative sources and/or indigenous peoples or local communities?	No
1.3	②oes the project involve changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note②if restrictions and/or limitations of access to lands would apply, refer to Standard 5)	No
1.4	Would project activities pose risks to endangered species?	No
1.5	Would the project pose a risk of introducing invasive alien species?	No
1.6	②oes the project involve the harvesting of natural forests, plantation development, or reforestation?	No
1.7	②oes the project involve the production and/or harvesting of fish populations or other aquatic species?	No
1.8	② oes the project involve significant extraction, diversion or containment of surface or groundwater? For example, construction of dams, reservoirs, river basin developments, groundwater extraction	No
1.?	②oes the project involve the utilization of genetic resources? (e.g. collection and/or harvesting, commercial development)	No
1.10	Would the project generate potential adverse transboundary or global environmental concerns?	No
1.11	Would the project result in secondary or consequential development activities which could lead to adverse social and environmental effects, or would it generate cumulative impacts with other known existing or planned activities in the area?	No
	For example, a new road through forested lands will generate direct environmental and social impacts @@@ felling of trees, earthwores, potential relocation of inhabitants@ @he new road ma@ also facilitate encroachment on lands b@ illegal settlers or generate unplanned commercial development along the route, potentiall@ in sensitive areas@hese are indirect, secondar@, or induced impacts that need to be considered@ @lso, if similar developments in the same forested area are planned, then cumulative impacts of multiple activities @even if not part of the same pro@ect@need to be considered@	
Standa	ard 🗈: Climate Change Mitigation and Adaptation	
2.1	Will the proposed project result in significant ³⁵ greenhouse gas emissions or may exacerbate climate change?	No
2.2	Would the potential outcomes of the project be sensitive or vulnerable to potential impacts of climate change?	Yes
2.3	Is the proposed project likely to directly or indirectly increase social and environmental vulnerability to climate change now or in the future (also known as maladaptive practices)?	No
	For example, changes to land use planning ma\(\text{lencourage further development of floodplains, potentiall} \) increasing the population's vulnerability to climate change, specifically flooding	
Standa	ard 3: Community Health®Satety and ® orking Conditions	
3.1	Would elements of project construction, operation, or decommissioning pose potential safety risks to local communities?	Yes

³⁵ In regard to C2₂, 'significant emissions' corresponds generally to more than 25,000 tons per year (from both direct and indirect sources).

®he 2uidance Note on Climate Change Mitigation and 2daptation provides additional information on 2H2 emissions.

3.2	Would the project pose potential risks to community health and safety due to the transport, storage, and use and/or disposal of hazardous or dangerous materials (e.g. explosives, fuel and other chemicals during construction and operation)?	Yes
3.3	② oes the project involve large-scale infrastructure development (e.g. dams, roads, buildings)?	No
3.4	Would failure of structural elements of the Project pose risks to communities? (e.g. collapse of buildings or infrastructure)	Yes
3.5	Would the proposed project be susceptible to or lead to increased vulnerability to earthquakes, subsidence, landslides, erosion, flooding or extreme climatic conditions?	No
3.6	Would the project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIZ/2IZS)?	No
3.7	②oes the project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during project construction, operation, or decommissioning?	Yes
3.8	②oes the project involve support for employment or livelihoods that may fail to comply with national and international labour standards (i.e. principles and standards of 122 fundamental conventions)?	Yes
3.2	②oes the project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)?	No
Stand	lard 🗈: Cultural Heritage	
4.1	Will the proposed project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note® projects intended to protect, and conserve Cultural Heritage may also have inadvertent adverse impacts)	Yes
4.2	②oes the project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes?	No
Stanc	lard ②: ② isplacement and Resettlement	
5.1	Would the project potentially involve temporary or permanent and full or partial physical displacement?	No
5.2	Would the project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions — even in the absence of physical relocation)?	No
5.3	Is there a risk that the project would lead to forced evictions? ³⁶	No
5.4	Would the proposed project possibly affect land tenure arrangements and/or community-based property rights/customary rights to land, territories and/or resources?	No
Stanc	lard 2: andigenous Peoples	
6.1	☐ Ire indigenous peoples present in the project area (including the project area of influence)?	No
6.2	Is it likely that the project or portions of the project will be located on lands and territories claimed by indigenous peoples?	No
6.3	Would the proposed project potentially affect the human rights, lands, natural resources, territories, and traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal	No

_

³⁶ Porced evictions include acts and/or omissions involving the coerced or involuntary displacement of individuals, groups, or communities from homes and/or lands and common property resources that were occupied or depended upon, thus eliminating the ability of an individual, group, or community to reside or work in a particular dwelling, residence, or location without the provision of, and access to, appropriate forms of legal or other protections.

	titles to such areas, whether the Project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)?	
	If the answer to the screening question 6.3 is "yes" the potential risk impacts are considered potentiall' severe and or critical and the protect would be categorized as either Moderate or ligh lister	
6.4	Has there been an absence of culturally appropriate consultations carried out with the objective of achieving <code>PIC</code> on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned?	No
6.5	②oes the proposed project involve the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples?	No
6.6	Is there a potential for forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access restrictions to lands, territories, and resources?	No
6.7	Would the project adversely affect the development priorities of indigenous peoples as defined by them?	No
6.8	Would the project potentially affect the physical and cultural survival of indigenous peoples?	No
6.2	Would the project potentially affect the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices?	No
Stanc	lard ②: Pollution Prevention and Resource E団ciency	
7.1	Would the project potentially result in the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts?	Yes
7.2	Would the proposed project potentially result in the generation of waste (both hazardous and non-hazardous)?	Yes
7.3	Will the proposed project potentially involve the manufacture, trade, release, and/or use of hazardous chemicals and/or materials? ②oes the project propose the use of chemicals or materials subject to international bans or phase-outs?	No
	For example, 222, 222s and other chemicals listed in international conventions such as the 2toc2holm 2onventions on 2ersistent 2 rganic 2ollutants or the Montreal 2rotocol	
7.4	Will the proposed project involve the application of pesticides that may have a negative effect on the environment or human health?	No
7.5	②oes the project include activities that require significant consumption of raw materials, energy, and/or water?	No
