**Brief Description**

UNDP Southern Sudan has developed the Annual Work Plan for *Cross-Cutting Advisory Support to GoSS* to provide a comprehensive approach to cross cutting issues of capacity development and conflict sensitive programming across the UNDP Southern Sudan programme. The project will (i) focus on support for capacity strengthening of GoSS and states to deliver on effective, efficient and transparent essential public services, policy formulation and aid coordination; and (ii) promote mainstreaming of peace building, reconciliation and conflict transformation approaches into programming.

## II. MANAGEMENT ARRANGEMENTS

The overall structure of this Project emphasizes and ensures GoSS ownership of the Project and its activities. A Project Executive Board (PEB) will be responsible for the overall management by providing guidance as required by the Project Manager, on key issues affecting the project. The Project Board will provide quality assurance for project evaluations process and products, and in applying such evaluation learning's for performance improvement and accountability. The Project will be coordinated by the project management team in consultation with the Ministry of Regional Cooperation (MRC). The PEB will be responsible for approving budgets, work plans, progress reports, and financial reports. The PEB will convene every quarter.

The project will be implemented using the Direct Implementation (DIM) modality and covers two cross cutting thematic areas led by the Capacity Development Advisor and the Peace & Development Advisor. The Capacity Development Advisor will work under the supervision of the Team Leader of the Business Management Unit (BMU) to support the formulation and implementation of the UNDP Southern Sudan strategy for capacity development. The Engineer, who will work under the supervision of the Team Leader of BMU, will also work on capacity development initiatives and provide support to UNDP projects on infrastructural activities. The Peace and Development Advisor, under the direct supervision of the Head of Office of UNDP Southern Sudan, will provide management support on conflict sensitive strategy and programming across all units in UNDP Southern Sudan.

---

### III. MONITORING

UNDP Southern Sudan will be responsible for monitoring and reporting on the interventions and will therefore ensure that appropriate M&E structures are in place, in accordance with UNDP Programme and Operations Policies and Procedures. A Project Progress Report will be prepared at the end of the 2010 and its findings and lessons learned will feed into the development of the Annual Work Plan for 2011. Monitoring will be undertaken as follows:

- On a quarterly basis, a quality assessment shall record progress towards the completion of key results, based on quality criteria and methods captured in the Quality Management table below.
- Reports will form the basis for assessing and steering performance of the project. The Project manager will submit to the Project Executive Board quarterly progress reports (QPRs) and Annual Reports – both the Quarterly and Annual Reports will include financial and narrative parts. Reports will be produced as per UNDP's Results-based management (RBM) project-cycle directives.
- An Issue Log shall be activated in Atlas and updated by the Project Manager to facilitate tracking and resolution of potential problems or requests for change.
- Based on the initial risk analysis submitted (see annex 1), a risk log shall be activated in Atlas and regularly updated by reviewing the external environment that may affect the project implementation.
- Based on the above information recorded in Atlas, a Project Progress Reports (PPR) shall be submitted by the Project Manager to the Project Board through Project Assurance, using the standard report format available in the Executive Snapshot.
- a project Lesson-learned log shall be activated and regularly updated to ensure on-going learning and adaptation within the organization, and to facilitate the preparation of the Lessons-learned Report at the end of the project.
- a Monitoring Schedule Plan shall be activated in Atlas and updated to track key management actions/events.
- **Annual Review Report.** An Annual Review Report shall be prepared by the Project Manager and shared with the Project Board. As minimum requirement, the Annual Review Report shall consist of the Atlas standard format for the QPR covering the whole year with updated information for each above element of the QPR as well as a summary of results achieved against pre-defined annual targets at the output level.
- **Annual Project Review.** Based on the above report, an annual project review shall be conducted during the fourth quarter of the year or soon after, to assess the performance of the project and appraise the Annual Work Plan (AWP) for the following year.

#### **IV. LEGAL CONTEXT**

This document together with the CPAP signed by the Government and UNDP which is incorporated by reference constitute together a Project Document as referred to in the SBAA and all CPAP provisions apply to this document.

Consistent with the Article III of the Standard Basic Assistance Agreement, the responsibility for the safety and security of the implementing partner and its personnel and property, and of UNDP's property in the implementing partner's custody, rests with the implementing partner.

The implementing partner shall:

- a) Put in place an appropriate security plan and maintain the security plan, taking into account the security situation in the country where the project is being carried;
- b) Assume all risks and liabilities related to the implementing partner's security, and the full implementation of the security plan.

UNDP reserves the right to verify whether such a plan is in place, and to suggest modifications to the plan when necessary. Failure to maintain and implement an appropriate security plan as required hereunder shall be deemed a breach of this agreement.

The implementing partner agrees to undertake all reasonable efforts to ensure that none of the UNDP funds received pursuant to the Project Document are used to provide support to individuals or entities associated with terrorism and that the recipients of any amounts provided by UNDP hereunder do not appear on the list maintained by the Security Council Committee established pursuant to resolution 1267 (1999). The list can be accessed via <http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm>. This provision must be included in all sub-contracts or sub-agreements entered into under this Project Document.

## ANNEX 2: RISK ANALYSIS

The Cross Cutting Advisory Support Project will maintain a Risk Log to ensure that necessary management actions are taken to minimize risk through escalation of project risks to the Project Board, and UNDP Management to provide prompt responses to those risks. Below are some of the key project risks identified for necessary countermeasures/management responses by the Project Board and the Project Team as well as other stakeholders concerned in achieving the success of the project:

ID	Description	Category	Impact and Probability	Management responses	Countermeasures/Management responses
1	Limited funds for implementing the project components. The team will have to prioritize limited activities for the year.	Financial Risk	Having limited funding will mean that the team will have to work with the available funds to implement limited projects on the ground and not be able to respond to the great demand by stakeholders.	<ul style="list-style-type: none"> <li>• The project team will embark on strengthening partnerships for resource mobilisation.</li> <li>• Proactive resource mobilization efforts.</li> <li>• Make financial adjustments to reflect current funding availability.</li> </ul>
