## United Nations Development Programme South Sudan Revised Annual Workplan [2012]

Project Title South Sudan Disarmament, Demobilization and Reintegration Programme (Individual Reintegration

Component)

Outcome 4:

UNDAF Outcome(s): Violence is reduced and community security

improves.

Implementing Partner: UNDP

UNDP in support of the Republic of South Sudan DDR Commission, FAO, IOM, NGOs (see list of

NGOs in Annex 1).

## Justification for the Revision, and Brief Description of the Programme

Revision to the Initial 2012 Annual Work Plan (AWP) of the South Sudan Disarmament, Demobilisation, and Disarmament Programme (SSDDRP) covering January – June 2012 is justified by the no-cost-extension approved by Multi-donor Trust Fund (MDTF) on 22 June 2012 to extend the programme implementation period beyond 30 June 2012 until 31 December 2012. The approval increased the programme scope with approval of new activity actions, and also increased the total budget of the programme for the year. This situation requires a Substantive Project Revision on the programme, which is the purpose of this Revised AWP covering the period January – December 2012.

The objectives of the programme in the Initial AWP covering January – June 2012 remain the same in the Revised AWP covering January – December 2012: (i) To complete reintegration support to 1,599 missing ex-combatants; and a carry-over of 2011 case-load of other 1,174 ex-combatants towards completion of reintegration support to all of the 12,525 demobilised ex-combatants in the programme. The support includes provision of disability aids and psycho-social support for 509 ex-combatants. (ii) Technical support to the South Sudan DDR Commission through capacity development; management support; and public information issue towards ensuring effective completion of the programme.

Programme Period: 2012 - 2013

Programme Component: Conflict Prevention and Security

Atlas Award ID:

000613545

Start Date: New End Date: 1 January 2012 31 December 2012

## Management Arrangement

The South Sudan DDR Programme (SSDDRP) will be managed by UNDP under UNDP's Direct Implementation (DIM) modality in close collaboration with the Republic of South Sudan DDR Commission (RRSSDDRC). UNDP, as the Implementing Agency, will ensure project delivery (procurement, grants management etc.) and project administration to the standard required by project donors and UNDP Programme and Operations Policies and Procedures. The project will be managed in a way that will contribute to building Government of Republic of South Sudan capacities, and ensuring accountability of funds and achievement of project output-level results.

## **Project Board**

A Project Board on SSDDRP will guide the overall strategic direction and management of the programme. The Project Board will guarantee the national ownership of the programme, and will bear ultimate responsibility for making executive management decisions, including approving potential Project revisions and workplans, and quality assurance of the programme. The UNDP Conflict Prevention and Recovery Unit (CPRU), led by the Unit Team Leader and with direct responsibility of the Senior Programme Specialist in the Unit, will provide technical support to the Project Board on quality assurance issues regarding the programme.

The Project Board will meet quarterly with its decision making reached on consensus basis. The SSDDRP Project Manager will act as Secretary to the Board to ensure invitations to the Board meetings, agendas and minutes of the Board meetings are properly prepared and disseminated. The membership of the various roles in the **Project Board** will be as follows:

- Executive Role: Chairperson of the RRSSDDRC
- Beneficiary Role: A representative each for Ministry of Defense and Veterans Affairs, Ministry of Interior, Ministry of Finance and Economic Planning, and RRSSDDRC
- Supplier Role: Representatives of donor organisations, and UNDP

## DDR Programme Coordination:

The Senior Reintegration Advisor will provide technical and advisory support to the Chairperson of the RRSSDDRC, and the senior management of the Commission towards ensuring effective strategic direction of the Commission in the DDR Programme. The Senior Programme Advisor will work under supervision and guidance of the Crisis Prevention & Recovery Unit (CPRU) Team Leader.

The Project Manager shall be responsible for the day-to-day management of the DDR Programme (Reintegration Component) in ensuring effective use of the project resources in providing the results planned in this Annual Work Plan (AWP). The Project Manager shall be responsible for performance management of other UNDP staff in the DDR Programme, apart from the Senior Reintegration Advisor. The Project Manager shall work under the supervision and guidance of the CPRU Team leader, and closely with the delegated Programme Specialist/Programme Analyst in the CPRU on quality assurance in the management and achievement of results in the DDR Programme. Within the RRSSDDRC, the Project Manager shall work in close collaboration with the Director General for Programme in RRSSDDRC in ensuring effective project planning, implementation, and M&E in line with the needs of RRSSDDRC as documented/updated in the Annual Work Plan.

To promote ownership, effective demand-driven result delivery, and sustainability of the DDR Programme in South Sudan, the UNDP DDR Team will co-locate with the RRSSDDRC. In this respect, UNDP DDR Programme staff will be occupying same office and working closely with relevant RRSSDDRC counterparts. The matrix-relationship of staff will therefore involve administrative accountability to UNDP on performance and results achievement, and technical relationship in teaming up on technical issues and capacity development support to the RSSDDRC as documented/updated in the Annual Work Plan. The co-location notwithstanding, the DDR Programme (Reintegration Component) shall follow UNDP project management, finance, human resources and procurement regulations.

A technical assistance unit involving Planning, and M&E (including Management Information System [MIS], Reporting) has been established in the DDR Programme (Reintegration Component) to ensure effective

planning through interfacing between the Disarmament and Demobilisation Phase and the Reintegration Phase of the DDR process. This will ensure timely information on the DD process for effectively planning of the Reintegration Phase, for timely and effective management advisory support, as well as risk management in reintegration process. Towards this end, periodic program status and exception reports shall be produced by the MIS and the reporting function of Planning, M&E Unit.

The involvement of other stakeholders in the Sudan DDR Programme shall be strengthened through attempts to engage technical line ministries and commissions in the delivery of reintegration services to excombatants. For instance, the ministry of Health will be involved in delivery services to excombatants with special disabilities, while ministries like Agriculture; Cooperatives and Rural Development; Commerce; as well as Gender, Children, and Social Welfare will be involved in their respective areas of technical mandates that are relevant to reintegration of DDR participants.

Public Information unit shall support public outreaches during both the Disarmament and Demobilisation Phase and the Reintegration Phase of the DDR Programme. Meanwhile, the Planning and M&E unit shall ensure effective and timely reporting to relevant stakeholders on the DDR Programme. The Management arrangement above describes the intended arrangement for implementation of the Programme. However, the actual management arrangement differs slightly in 2012.

## Existing Programme Management Arrangement in the Programme in 2012:

The project management arrangement for the Project Manager Role, Programme Support, and Technical Teams of the programme exist as planned. The Technical Coordination Body also exists through Monthly Meetings of the RSSDDRC Directorate of Programme. UNDP continues to provide technical guidance and quality assurance support to the programme, as expected.

However, the Project Board could not be formed as the South Sudan DDR Commission senior management have been heavily involved in the formulation of the New DDR Programme. The Policy for the new programme was approved by the Government of Republic of South Sudan on 24 September 2011. The formulation of the New DDR Strategy and the Programme Document started in 2011 and continued with review process up till second quarter, 2012.

The Multi-Donor Thrust Fund Oversight Committee (MDTF-OC) Meetings, a high-level forum of Government institutions and donors, provide same role as the Project Board to the programme. Incidentally, the MDTF is the only donor for the programme in 2012. The Minister for Finance and National Planning presides over the MDTF-OC, with the Head of the Joint Donor Team as the Alternate Chairperson. Other members of the committee include representatives of various ministries of the Government of South Sudan Ministries (at Minister and Under-secretary Levels), Government Advisors, Donors, and UN agencies including UNDP. The RSSDDRC also participates in the meetings that are held on bi-monthly basis. The MDTF-OC Meetings ensure and widen the national ownership and government-leading of the programme, and also promote involvement of other government institutions in DDR actives that cut across several Development Sectors as well as the Security Sector in South Sudan. As the programme will be closing in 2012, efforts shall be made to establish the Project Board to undertake the Final Project Review, and to provide strategic direction on the Operational Closure of the programme by 31 December 2012.

**Exit Strategy:** The exit strategies to be pursued further in this closing year are based on capacity development support to RSSDDRC, and linkages with existing recovery programmes in South Sudan.

## Monitoring Framework and Evaluation

In accordance with the programming policies and procedures outlined in the UNDP User Guide, the project will be monitored through the following:

## Within the annual cycle

- On a quarterly basis, a quality assessment shall record progress towards the completion of key results, based on quality criteria and methods captured in the Quality Management table below.
- > An Issue Log shall be activated in Atlas and updated by the Project Manager to facilitate tracking and resolution of potential problems or requests for change.
- Based on the initial risk analysis submitted a risk log shall be activated in Atlas and regularly updated by reviewing the external environment that may affect the project implementation.
- Based on the above information recorded in Atlas, a Project Progress Reports (PPR) shall be submitted by the Project Manager to the Project Board through Project Assurance, using the standard report format available in the Executive Snapshot.
- a project Lesson-learned log shall be activated and regularly updated to ensure on-going learning and adaptation within the organization, and to facilitate the preparation of the Lessons-learned Report at the end of the project
- A Monitoring Schedule Plan shall be activated in Atlas and updated to track key management actions/events

## Closure of South Sudan DDR Programme

The South Sudan DDR Programme (SSDDRP) will be closing on 31 December 2012; hence it is necessary to prepare and submit a Final Project Review Report instead of the usual Annual Review Report, and also to conduct a Final Project Review instead of the usual Annual Project Review

- Final Project Review Report. A Final Project Report shall be prepared by the Project Manager and shared with the Project Board and the Outcome Board. This is a report from the project team to the Project Board and the Outcome Board, using the same format than the Progress Report available in the Executive Snapshot of UNDP. As such, it does offer a coherent and structured assessment of progress based on the chain of results initially defined in the Resources and Results Framework (RRF). It may be supplemented by additional narrative to meet specific reporting needs of stakeholders, especially bilateral donors. As an annex, a Lessons Learned report should also be prepared, summarising the information captured in the Lessons Learned log throughout the implementation of the project.
- Final Project Review. This is the final assessment of the SSDDRP by the Project Board. Based on the above report, a Final Project Review shall be conducted during the fourth quarter of 2012 to assess the performance of the project for the whole duration of the programme. This review is driven by the Project Board and may involve other stakeholders as required. It shall focus on the extent to which progress is being made towards outputs, and that these remain aligned to appropriate outcomes.

The Final Project Review is distinguished from an evaluation because the latter is an external assessment, while the former is a self assessment exercise. The findings from the review can be used to inform the evaluation and vice versa.

Final Evaluation and Audit. The DDR Programme Document and the Disbursement Agreement with MDTF-South Sudan, existing donor to the programme, require evaluation and auditing of the programme. Both activities shall be commission by UNDP in line with the corporate rules and regulation of the organization, and in collaboration with RSSDDRC and other stakeholders of the programme.

- Operational Completion. A project is operationally complete when the last UNDP-financed inputs have been provided and the related activities have been completed. UNDP shall inform the Project Board when this has been done. When a project is operationally complete, the parties must agree on the disposal of any programme equipment and other assets that are still the property of UNDP.
- ➤ Financial Completion. Projects should be financially completed not more than 12 months after being operationally completed or after the date of cancellation. The SSDDRP shall be financially completed when:
  - It is operationally completed;
  - The Implementing Partners (FAO and IOM) have reported all financial transactions to UNDP;
  - UNDP has closed the accounts;
  - UNDP and the Implementing Partners have certified a final Combined Delivery Report (which serves as Final Revision).

Between the periods of Operational Completion and Financial Completion, Implementing Partners are required to identify and settle all financial obligations and prepare a final expenditure report. No adjustments can be made to a financially completed project.

## **Quality Management for Project Activity Results**

## Legal Context

This document together with the CPAP signed by the Government and UNDP which is incorporated by reference constitute together a Project Document as referred to in the Standard Basic Assistance Agreement (SBAA) and all CPAP provisions apply to this document.

Consistent with the Article III of the Standard Basic Assistance Agreement, the responsibility for the safety and security of the implementing partner and its personnel and property, and of UNDP's property in the implementing partner's custody, rests with the implementing partner.

The implementing partner (IUNDDRU) shall:

- a) put in place an appropriate security plan and maintain the security plan, taking into account the security situation in the country where the project is being carried;
- b) assume all risks and liabilities related to the implementing partner's security, and the full implementation of the security plan.

UNDP reserves the right to verify whether such a plan is in place, and to suggest modifications to the plan when necessary. Failure to maintain and implement an appropriate security plan as required hereunder shall be deemed a breach of this agreement.

The implementing partner agrees to undertake all reasonable efforts to ensure that none of the UNDP funds received pursuant to the Project Document are used to provide support to individuals or entities associated with terrorism and that the recipients of any amounts provided by UNDP hereunder do not appear on the list maintained by the Security Council Committee established pursuant to resolution 1267 (1999). The list can be accessed via <a href="http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm">http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm</a>. This provision must be included in all sub-contracts or sub-agreements entered into under this Project Document.

## VI. ANNEXES

## Annex 1: List of Grantee NGOs in the DDR Small Non-Credit Grant

|    | Financial/<br>Strategic | New Risk: Lack of approval of disbursement of the balance of allocated funds on activities for completing the re-designing of the DDR Programme by donors and MDTF:  Further delay in approval/eventual non-approval of disbursement of the balance of fund for utilisation during the approved no-cost-extension period of July – December 2012 will lead to repetition of the unfortunate incident of delay between completion of disarmament and demobilisation (DD) of ex-combatants, and the reintegration process for demobilised ex-combatants in the on-going CPA-DDR Programme, as most preparatory DD activities have been completed.  This risk is one of the issues identified in the Independent Review of the ongoing CPA-DDR Programme in 2010 that has recommended re-designing of the programme.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | the purpose intended in the DDR Programme.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Y                |
|    | Financial               | Mitigated Risk: High possibility of lack of funds for implementing the on-going CPA-Phase DDR Programme beyond the MDTF-SS fund closing date of 30 June 2012; if it should become necessary to extend the programme implementation period beyond 30 June 2012, MDTT-200 in the simplement and some content of the programme implementation period beyond 30 June 2012, MDTT-200 in the simplementation of the programme implementation period beyond 30 June 2012, MDTT-200 in the programme in th | There is a need for further discussion with the RRSSDDRC and UNDP senior management with the MDTF-SS and Ministry of Finance and Economic Planning regarding possibility of a nocost-extension of the programme beyond 30 June 2012.  It is also necessary of additional resource mobilisation to cover possible extension of the closing date of the on-going CPA-Phase DDR Programme beyond 30 June 2012.  Updated Management Response:  No-cost-extension approved to extend the programme implementation period until 31 December 2012:  The MDTF Secretariat, on 22 June 2012, approved a no-cost-extension to extend the programme implementation period from 30 June 2012 to 31 December 2012 when the programme is expected to close. The extension also involves approval of implementation of some Capacity Development and Management Support activity actions with USD 3,538,092 approved to be disbursed on the activities. | N                |

|                       | Revised Risk: As at 30 June 2012,                                                                                                                                                                                                                                                                                                                                           | process. Activities on mobilisation of the missing ex-combatants will continue to ensure their participation in the reintegration process before the close of the on-going DDR Programme on 30 June 2012.  In June 2012, UNDP approved Small Grants Award contracts in a total amount of USD                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                            |
|                       | only about 670 ex-combatants could be mobilised despite the fact that extensive Public Information (PI) Campaign was conducted by RRSSDDRC and UNDP to mobilise missing ex-combatants into the reintegration process of the on-going DDR Programme.                                                                                                                         | 1,005,000 for 10 selected NGOs for their provision of reintegration-support to mobilised 670 erstwhile missing ex-combatants in 8 states (not including Unity State and Upper Nile State at the moment). Signing of the contracts is expected to be completed in July 2012 towards immediate take-off of the project implementation by the 10 grantee NGOs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                            |
| Coough                |                                                                                                                                                                                                                                                                                                                                                                             | Public Information (PI) campaign will continue throughout implementation of the program, including broadcasting to announce the commencement of implementation of reintegration projects by the new IPs in the states through the local radio stations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                            |
| Security              | Continuing Risk: Insecurity, especially in the form of local level conflicts, could threaten the success of the programme as factions could feel they have less of a stake in maintaining stability. Insecurity in South Sudan will be a particular challenge. Moreover, the movements of ex-combatants back to communities.                                                | The RSSDDRC and IUNDDRU will link closely with recovery efforts and peacebuilding efforts to promote synergy in results achievement on mitigating security risks associated with providing DDR support to ex-combatants.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Y                          |
| Other (Economic Risk) | Continuing Risk: There are limited economic opportunities for reintegrated ex-combatants in livelihoods/employment generation in the private sector in South Sudan. The limited local economies could contribute to resentment amongst DDR participants if they are not able to meet their basic needs, which in turn could cause them to become restless and even violent. | UNDP has started consulting with UNDP Poverty Reduction and MDG Programme, and other development partners towards conducting a joint study on Labour Market in South Sudan towards identifying economic opportunities for trained DDR participants as well as returnees to South Sudan.  Updated Management Response: A study on South Sudan Livelihoods and Economic Opportunities Mapping was completed, and report submitted in April 2012:  The report emphasises on how the participation of aid organizations and government institutions can support economic reintegration of XCs in the New DDR Programme, by showing the challenges and opportunities for economic reintegration. It also records various experiences from livelihoods programmes that have been implemented within South Sudan and her neighbouring countries. The main findings on economic opportunities in non-oil sectors focus on rural agriculture, business development services, infrastructure and communication, and the urban economy. The study recommended need for policies to support XCs with respect to (1) access to land and potential Natural Resources; (2) developing of the private sector; | Y                          |

|    | Environmental     | Continuing Risk: Seasonal variation in weather conditions will affect the programme in two ways. Firstly, much of Sudan will be inaccessible for a significant period of the year, meaning that the delivery of reintegration training, ICRS, etc. will be constrained. Furthermore, seasonal migration will have the potential to spark conflicts between local communities that further restrict implementation for periods of the year. | Careful planning with the RSSDDRC and clear communication will avoid raising participants' expectations and later disappointing them when activities are delayed. Conflicts over migration routes that could threaten the programme are hopefully being addressed through complementary community security and peacebuilding initiatives through other programmes. | Y                          |

Project Resources Overview Report run date and time Year selected by user

ALWAYS shows ALL as this will list all projects having the selected fund code Atlas budget department code (e.g. B0xxx) selected by user

All outputs under the Project with the selected fund code This is equivalent to the Award ID in Atlas.

Authorized spending limit through established allocation, i.e. for UNDP, thru the ALT\_DP budget ledger Entity (providing the resources for an output) ID per Atlas donor reference table+short description

Total cash resources as at 1 January of the selected year, i.e. for UNDP, thru the AX1\_DP budget ledger Donor contributions paid/received

Total resources available to spend. Calculated field: for ASL-controlled funds this would be equal to the ASL for cash-controlled funds, this is the opening cash balance + revenue collected

Total finalized budget in Atlas (total budget sent to Atlas Commitment Control/KK) for current, next and future years

Open or outstanding commitments, i.e. the total \$ value of unreceipted PO lines Expenses, i.e. all 60000 and 70000 series expense accounts but excluding deprectiation and amortization expenses + full cost of receipted assets acquired in that year. Note: depreciation and amortization expenses are non-cash expenses and as such will not reduce available resources for spending. From the budget perspective,

Calculated field: Approved Budget minus commitments minus (expenses+full asset cost) minus current year outstanding NEX advances Unexpensed portion of NEX advances in the current year, i.e. the sum of account 16005 for periods 1 to 998. Calculated field: ASL + opening cash balance + revenue collected minus commitments minus

Cumulative Recognized Revenue MINUS Cumulative Collected Revenue (total of past and current years). (expenses+full asset cost) minus current year outstanding NEX advances All pending (unpaid not past due) donor contributions; which consists of:

a. Third Party and Other- These are future amounts expected from donors based on signed agreements (Atlas Contracts Module).
 b. Govt. Cost Sharing Agreements - Negotiated amount in master contract MINUS all contracts created for Government Cost Sharing under

the master contract which is based on cash received from the government. (Atlas Contracts Module).

## BRIEF OF DDR PROGRAMME FINANCIAL RESOURCE AND CLOSURE PLANNING

## 1. Financial Resources for MDTF-DDR Programme (2012):

The report on Fund Utilization on MDTF-DDR Programme as at 21 November 21, 2012 is presented in annex I. The report shows an estimated shortfall of USD 87,708 based on estimated expenditure and commitments against the available resources for DDR in 2012. An additional amount of USD 396,524 is required for the DDR Programme closure activities from January to April 2013 (Annex II). This has resulted in amount of USD 484,232 as estimated total shortfall until the closure of DDR on April 30, 2013.

## Recommendation:

- Additional fund to be requested from World Bank (MDTF Secretariat) for covering the total estimated shortfall of USD 484,232. This request should supercede the letter of 30 October 2012 to the World Bank.
- DDR-MDTF budget revision for 2012 to be conducted in order to align the approved 2012 budget with the available resources for spending in 2012.
- Draft 2013 DDR Annual Workplan with a budget amount of USD 396,524, to be prepared and submitted to the World Bank for approval.

## 2. DDR Programme Closure Process:

The DDR Programme Team has started preparation of the following documents for presentation as Preliminary Final Review Report to the Project Board in December 2012:

- Final Project Review Report to include Lessons Learned Report, Catalogue of Knowledge Products, and Followup Actions.
- Making final payments and preparation for final reports on the DDR Small Grants
- Preparation of ToR and Procurement Process for conducting of Final Evaluation and Audit in 2013
- Final review of DDR commitments in 2012 towards payment before 31 December 2012, and payment of the balance by 30 April 2013
- Review of Asset Inventory to ensure effective accountability and decisions on asset management by UNDP and the Project Board.
- Plan for Operational Closure of the programme by 30 April 2013

## Details of the DDR Programme Closure Planning are presented in Annex III.

The MDTF Project Directors and Coordinators Meeting of 11 October 2012 recommended the need for projects to retain some TA (Technical Assistance) for the period of closure of MDTF Projects, and towards ensure sustainability of the projects. The DDR staff positions listed in Annex IV are considered necessary for ensuring effective Operational Closure and oversight of residual activities of the DDR Programme in January – April 2013.
