**Brief Description:**

This project aims to strengthen the National Assembly of Suriname in carrying out its core functions and responsibilities, based upon a comprehensive approach to parliamentary development. The project will focus on 8 areas: legislative function, oversight function, representative function of parliament, Secretariat and staff services, parliamentary strengthening instruments, international relations, gender equality and ICT strengthening of Parliament. A component on Programme Management has been added to manage and monitor for successful results. The project will provide policy guidance, initiate capacity building initiatives and facilitate best practices in parliamentary development and good governance. The project is based on four strategy foundations: promoting national ownership in parliamentary development; incorporating of 'lessons learned' from other parliamentary development projects; knowledge building and knowledge transfer to enhance sustainability and working cooperatively with other partners.
