Thanks for the reminder and apologies for the delay in reviewing this document.

While I appreciate the effort to broaden it from the original TRAC 2 approved proposal, there are still some serious gaps in my views and missed easy opportunities to demonstrate our added value by cross referencing some key issues such as SDGs, Biodiversity convention related work, Ethnic minorities and traditional knowledge, working with you around the Biodiversity network. Etc....

Please review the attached annotated version of the document and address these points.

Best,

Renaud Meyer

Dear Khun Renaud,

May I please follow up on the below request for your approval and signature for the Initiation Plan of the TRAC 2 project? If you would like to have any other information, please let us know.

Thanks and best regards,
Noon

Dear K Renaud,

Referring to the Initiation Plan for the *Strengthening environmental sustainability in the context of COVID-19 pandemic Project* under TRAC 2 funding, we have consolidated inputs from colleagues and finalized the document.

Please find attached the final Initiation Plan for your approval and signature. If you would like to have any additional information, please let me and K. Saengroj know.

Thanks and best regards,
Noon (Phatthamon)

Dear colleagues,

Attached for your comment please find a draft initiation plan for the *Strengthening environmental sustainability in the context of COVID-19 pandemic Project* which illustrates activities proposed under the approved TRAC 2 funding and follow-on activities from the Tiger project focusing on innovative conservation approaches.

The purpose of an initiation plan is to serve as a programming mechanism for ideas/interventions that would hopefully lead to become a project/programme after completion in 18 months.

Grateful if you could provide your feedback (if any) on the draft by **COB Friday May 15**.

Thank you in advance.

Best regards,
Saengroj
