

## HANDOVER DOCUMENT

Since May 2019 United Nations Development Programme (UNDP), in partnership with Special Administrative Region Authority of Oé-Cusse Ambeno (RAEOA), UN Resident Coordinator's Office and UNICEF, has been implementing the "Leveraging ICT to Improve Education and Skills in Timor-Leste" Project, thanks to the generous financial contribution of the Government of the Republic of India through the UN Office of South-South Cooperation (UNOSCC).

The Project so far has made significant progress in developing innovative information and communication technology (ICT) infrastructure as well as learning and teaching materials in Oé-Cusse. The project has completed all activities within the project period and to complete training activities and deliver on the results as committed.

From May 2019 to May 2021, UNDP purchased the required ICT equipment below and developed materials for implementing project activities.

Both parties agreed on:

- 1) the handover equipment is used only for school purpose and no other purpose different from project activities continuation under SRESS-RAEOA.
- 2) From now onwards, the handover equipment belongs to SRESS-RAEOA, therefore it is a government's asset and the SRESS should conduct the necessary actions for registering in the government system
- 3) SRESS- RAEOA is responsible for the management and/or maintenance of the mentioned equipment and/or any other cost incurred after the equipment handover.

The list of equipment is attached at the annexed document.

Tuesday, 28 May 2021

Abelina da Costa  
Regional Secretary of Education and  
Social Solidarity (SRESS)

Mohammad Monirul Islam  
ICT Education Project Coordinator  
UNDP

ANNEX

ICT Education project "Leveraging ICT to Improve Education and Skills in Timor-Leste" handover to the Regional Secretary of Education and Social Solidarity (SRESS-RAEOA) in Oé-Cusse the following equipment:
