

### Brief Description

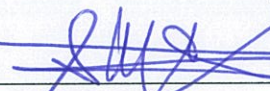

The government of Vanuatu with assistance from UNDP has chosen to address the MDG target 5.B: on improving reproductive health with emphasis on reducing the adolescent birth rate (Indicator 5.4), especially in rural areas, and reducing the unmet need for family planning (Indicator 5.6).

UNDP will assist the Government of Vanuatu to implement the MDG Acceleration Framework for Vanuatu by providing support in the following areas relating to the identified key priority areas and related selected interventions in the Vanuatu MAF:

1. Policy Advisory Services
2. MDG Planning and Monitoring
3. MAF Advocacy & the Post 2015 agenda
4. Programme Management and M&E
5. Resource Mobilization for the Implementation of the MAF
