Revision Type: Project Duration Extension and Increase in Budget

Project Description:

The project aims to strengthen the ICT usage capacities of local youth platforms as well as the rest of the community; to create employment opportunities for those who have received IT literacy training for the national digital inclusion and to efficiently contribute to the implementation of the information society strategy of Turkey. The target of the project is covering 81 cities in Turkey with the trainers pool of 1500 young volunteers. The project was initially planned to be completed in three years. In the budget 2012, the project partners agreed to extend the project duration until the end of 2012 to enable more disadvantaged groups.
