

REF: PROG/ENV/2016/016

26 May, 2016

Dear Sir,

Re: Extension of the Community Based Adaptation (CBA) Project

Following sound implementation and successful completion of the CBA project, which was executed through the Small Grants Program (SGP) during 2013 – 2015, we are pleased to inform you that our office has provided additional resources to the tune of US\$ 750,000 to support implementation of scale up activities within the project for the period up to 31 December 2016. UNDP hopes that the extension of project activities will create broader impact and achieve sustainability of the earlier interventions as well as reach more vulnerable people that are affected by the challenges of Climate Change.

Attached, please find a signature page for Government concurrence. A draft Call for Proposals that will be used to invite project proposals from key stakeholders is also attached for your kind preview. Since it is an extension of a completed project, criteria for project selection will remain the same that the National Steering Committee (NSC) for SGP used in the previous phase. However emphasis will be on those projects that show a clear plan for linkage with local government, link to livelihoods improvement and ability to sustain project results beyond the end of the grant funds.

It will be appreciated if the enclosed signature page will be signed and returned to us for our further action.

Once again, I would like to thank you for your continued cooperation and assistance and take this opportunity to renew the assurances of my highest consideration .

Yours sincerely,

Awa Dabo

**Project Revision I:
Climate Change Adaptation Support through Small Grants Programme**

Award Title:	Climate Change Adaptation support through Small Grants Programme
UNDAP Outcome:	Key MDAs and LGAs integrate Climate Change Adaptation and Mitigation in their strategies and plans
UNDAP Output:	National capacity and strategies for Climate Change Adaptation in place
Key Results Area (UNDP Strategic Plan):	Selected LGAs integrate CC adaptation actions in their development plans, strategies and budgets
Project Titles:	Project ID/ Title:
<i>Linked to the UNDAP key actions</i>	83812 Climate Change Adaptation support through Small Grants Programme
Project Output(s): <i>Those that will result from the project and extracted from the activities under key actions in the UNDAP</i>	Output 1: Awareness and understanding of the linkage between CC and human development for local communities increased Output 2: Strengthened capacity on adaptation of CCA in district and Village development plans Output 3: CCA projects demonstrated in water, agriculture and livestock sectors Output 4: Strengthened capacity on mainstreaming of gender considerations in CCA initiatives at local level Output 5: Project results and lessons learnt generated and documented for replication and policy feedback Output 6: Project monitoring facilitated on continuous basis
Implementing Partner: <i>This refers to the key IP(s) indicated in the UNDAP</i>	Vice President's Office (VPO)
Responsible Parties: <i>Other partners responsible for project activities under agreement with the IP</i>	NGOs to be selected through a competitive selection process

Brief Description

This project aims at supporting implementation of early adaptation actions for local communities that are adversely affected by climate change impacts in selected areas of Tanzania. The project also focuses on demonstrating successful community based climate change adaptation initiatives to transform productive capacities for resilient livelihoods of the poor and excluded. The basic idea is to improve people's livelihoods through reducing vulnerabilities and increasing climate change resilience. The project objective will be achieved by equipping the communities with knowledge and technologies, which are appropriate for combating impacts of climate change on agricultural productivity, food security, water availability and rangelands.

Project Extension:

Following successful completion of this project on 31 December 2015 and need to promote financial sustainability of the supported actions, the project is extended for 1 year up to 31 December 2016. During the extension period, successful CSOs that implemented CBA initiatives under this project will be invited through a competitive process to present proposals that will facilitate completion of the value chain of their actions and promote financial sustainability through market transformation. A total of USD 750,000 has been added to support the extension phase.

Programme Period:	2011-2016
Atlas Award ID:	68935
Start date:	Jan 2013
End Date:	Dec 2016
LPAC Meeting Date:	29 Nov 2012
Implementation Modality:	NIM

Total resources required:	USD 4,200,000
Total allocated resources:	
Regular (TRAC)	USD 2,800,000
• Other:	
○ One UN Fund	USD 300,000
